SUMMARY

Dedicated and customer-focused professional with a strong educational background in consumer service. Seeking a challenging role in consumer service to leverage my excellent communication skills, problem-solving abilities, and commitment to delivering outstanding customer experiences. Excited to contribute to a company's success by ensuring customer satisfaction and maintaining positive relationships.

EDUCATION

Information Technology(IT)+2

Shree Saraswati Secondary School / Johang / May, 2019 - Present

This education equipped me with the essential knowledge and skills required to oversee and manage IT operations effectively. My studies covered a wide range of topics, including network administration, cybersecurity, database management, software development, and project management. This education has provided me with a strong foundation to oversee IT systems, troubleshoot issues, and ensure the smooth functioning of technology infrastructure in various organizations.

TRAINING/CERTIFICATIONS

Console App Development

Shree Saraswati Secondary School , 2023

This training helped me to develop my skill of project management, research and many more.

PROJECTS INVOLVED

Transportation Management System

A Transportation Management System (TMS) is a comprehensive software solution designed to streamline and optimize the management and execution of transportation and logistics operations. It plays a crucial role in improving the efficiency, visibility, and cost-effectiveness of supply chain processes. Here's a detailed description of a Transportation Management System:

A Transportation Management System (TMS) is a sophisticated software platform that revolutionizes the way businesses plan, execute, and manage their transportation and logistics operations. TMS solutions are indispensable for companies that rely on the efficient movement of goods, whether it's shipping products to customers or receiving raw materials from suppliers.
